## PRESENTERS:

Reesa Donnelly, Ph.D., PCIT International Certified Global Trainer  
Contact information: [donnelyr@gmail.com](mailto:donnelyr@gmail.com)  
Affiliated Agency: Dr. Reesa Donnelly Inc.

Dr. Donnelly's clinical work focuses on families with young children experiencing behavior problems, with a specialization in Parent-Child Interaction Therapy and Cognitive Behavioral Therapies. She served as research coordinator for an R01 research grant investigating PCIT for children with ADHD. She has served in leadership roles for Parent-Child Interaction Therapy (Chair of Continuing Education Task Force, Ad Hoc member of the Advisory Board, member of the Policy and Advocacy Task Force, and Convention coordinator for the 2011 PCIT convention). She is trained in adaptations of PCIT including PCIT-Toddler, PCIT-CALM (Coaching Approach behavior and Leading by Modeling), CARE (Child-Adult Relationship Enhancement), and CARE in the Classroom.

Miya Barnett, PhD, PCIT International Within-Agency Trainer  
Contact information: [mbarnett@ucsb.edu](mailto:mbarnett@ucsb.edu)  
Affiliated Agency: University of California, Santa Barbara

Dr. Barnett is an Assistant Professor at the University of California, Santa Barbara and director of the UCSB PCIT Clinic and PADRES Research Lab. As a bilingual clinician and trainer, her work focuses on improving access to high quality services for Spanish-speaking, Latinx families through the implementation of evidence-based practices, including PCIT, within community settings. Her community-partnered research to increase access to PCIT for Latinx families has been funded by the NIMH. She also serves as the Chair of the PCIT International Policy and Advocacy Task Force, which focuses on addressing barriers to implementing PCIT within community settings.

## DETAILED PROGRAM DESCRIPTION:

Training will focus on skills needed to be a Within-Agency PCIT Trainer. Within-Agency Trainers are individuals who have received such PCIT training as to be qualified to teach and supervise therapists at their own program or agency ("in-house" training), with a scope of trainership that is limited to their physical location or site. Within-Agency trainers offer a unique training experience to their trainees by use of the "co-therapy" model, which allows trainees to learn PCIT during actual sessions with the Within-Agency Trainer. This program will emphasize the ability of the Within-Agency Trainer to structure training for their therapists-in-training, including timing of didactics and co-therapy. Participants will practice techniques for developing coaching skills in their trainees through both didactics and in-session coaching. Fidelity to the PCIT protocol will be emphasized throughout the training, including assessment of their trainee's adherence to fidelity using the integrity checklists within the protocol. Participants will practice assessing trainee competencies including calculating their trainees' DPICS coding reliability. Trainee assessment will also focus on tracking competencies on a training tracker including CDI competency, PDI competency, case graduation, and attendance in didactics and consultation. Please note, if the workshop has fewer than 5 registrants 45 days prior to training, there will be insufficient registration to conduct the training. In that case, participants will be notified 45 days prior to training that the workshop is cancelled and the full amount paid by each registrant will be refunded.

**TARGET AUDIENCE:** Masters- or doctoral-level, mental health practitioners who are currently licensed in their state and certified by PCIT International as PCIT therapists. Participants must be interested in becoming a Within-Agency (Level 1) trainer and willing to commit to the year-long videoconferencing consultation and video-review process. This material is intended for **advanced-level** audiences.

**ACCOMODATIONS:** Participants who need accommodations for disability will gladly be assisted. For any accommodations needed, please email Reesa Donnelly at [donnelyr@gmail.com](mailto:donnelyr@gmail.com) 3 weeks prior to training.

**LIMITATIONS/RISKS:** The risks associated with this training are low. Most common risks include stress that may occur when attempting to train a trainee to achieve skill competency, which will be guarded against by establishing rapport with trainees and moving at a pace that matches their progress in learning. Another common risk is

managing the stress that the Within-Agency trainers may experience when their trainee implements coaching of discipline in session with a highly disruptive child. This will be ameliorated through ongoing case consultation between the Within Agency Trainer and the Global Trainer (Reesa Donnelly). Limitations of the content include limits to the populations that are served through this treatment modality (e.g., this treatment is not used with children aged 7 years or older).

**GRIEVANCES:** Should a participant wish to file a grievance regarding this continuing education experience, s/he may email [pcit.ce@gmail.com](mailto:pcit.ce@gmail.com) or mail to: PCIT CE, 22713 NW 191st Lane, High Springs, FL 32643 to submit a complaint or to ask additional questions.

**DISCLOSURES & COMMERCIAL SUPPORT:** There are no commercial supports that could be construed as a conflict of interest. Neither trainer receives commercial support for this training nor has conflicts of interest or commercial interest for this training including grants/research support. Neither trainer is has stock, receives honorarium, or is an employee of a commercial interest organization

## **CONTINUING EDUCATION CREDIT**
